EVENT REPORT

1	Name of the Event	"One Week Hands-on Training on AutoCAD "
2	Day & Date of the Event	15 th Oct. 2019 to 19 th Oct. 2019
3	Time of the Event	10:30 am to 04:30 pm
4	Venue of the Event	C 105 Cad lab I, Mechanical Engineering Department.
Sr. No	Objective	Expected Outcomes
1	To study sketching and taking field dimensions.	Students will learn about design and opportunities in the field of design engineering.
2	To study basic engineering drawing formats.	Students will become familiar with AutoCad two-dimensional and 3D drawings.
3	To provide In house training of various design tools and parameters.	Students will develop good communication skills and teamwork.

5 Description

(a)Introduction, Theme & Significance

a) Introduction

AutoCAD is a commercial computer-aided design (CAD) and drafting software application. Developed and marketed by Autodesk,. AutoCAD was first released in December 1982 as a desktop app running on microcomputers with internal graphics controllers. Before AutoCAD was introduced, most commercial CAD programs ran on mainframe computers or minicomputers, with each CAD operator (user) working at a separate graphics terminal. AutoCAD has several applications but mainly for Mechanical Engineering Applications AutoCAD Mechanical is mostly used in industry.

b) Theme

In mechanical engineering/industry we used to design the structure of components or machine members with the help of AutoCAD.

As it is a basic software, we can make 2-D designs more effectively than 3-D. (We can also design in 3-D, but remaining advanced software's are flexible comparatively with AutoCAD)

In some designing and manufacturing industries, the design made in AutoCAD software was directly applied by the machines (CNC) on the product, called as CAM.

c) Significance

In this fundamental course, students will be introduced to the basics of engineering drawing. Terms and definitions used in industries, such as manufacturing and construction, may also be covered. Specific skills introduced in this course may include sketching, geometric construction, auxiliary drawing, computing dimensions and lettering. Students will be also introduced to computer-aided drawing (CAD) software or techniques.

(b) Conduction, Guest details, Activity

a) Conduction

Mechanical department conducted "**One Week Hands-on Training on AutoCAD**" for Second and Third Year students of Mechanical Engineering Department.

b) Guest details

Mr.Sachin Pardeshi
CADCENTRE Wagholi
Pune.

d) Activity

One Week Hands-on Training on AutoCAD includes basic knowledge of AUTOCAD software, its use, functions, applications in various industries like Automobile industry Ship building, Industrial Equipment, Aerospace etc.

c) Students & Faculty response & participation

a) Students Response:

More than 50 students of Second & Third Year Mechanical Engineering were attending these training Sessions conducted in One weeks and 6 hours per day. The student's response was excellent and they built their confidence about various software handling and improve the confidence.

Accredited with NAAC "A" Grade

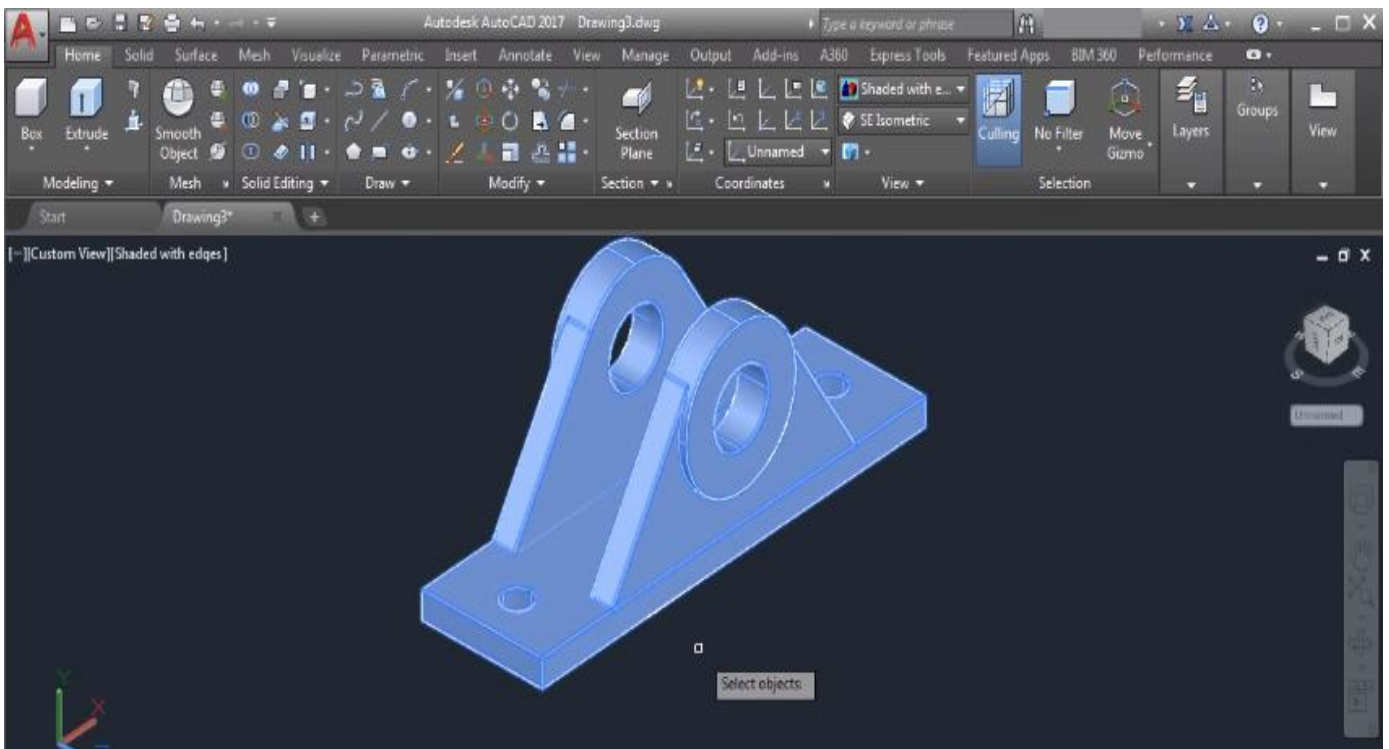

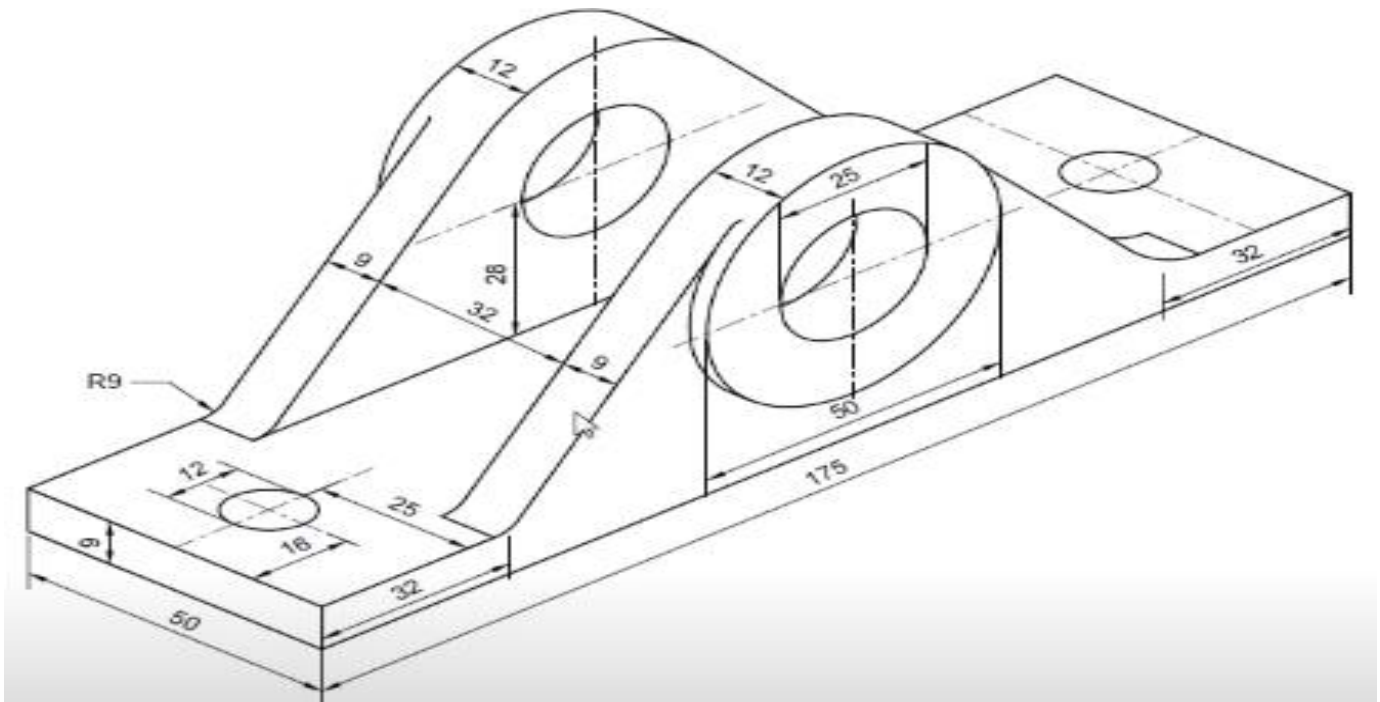

Workshop Syllabus:-

1. Interface, Drawing Aids & Basic Objects
2. Complex Objects & Object editing
3. Blocks & Annotations
4. Plotting & Introduction to 3D

Accredited with NAAC "A" Grade

Assessment-Making 3D Object by using various commands
